

TECHNICAL DATA SHEET SB 110/16 SCRATCH-OFF INK SILVER

Application:

- Ink to print on lottery-tickets.
- To print on paper and cardboard.
- Ground layer: offset release varnish ,
Uv 150 Special mauve or solvent
based
CF 150/14.
- Type: Solvent based ink.

Aspect:

Satin

Dilution:

- Normal reducer SB 2000/1 add 10% max 15%.
- Slow reducer SB 3000 add 10% max 15%.

Drying:

+/- 10 min in open air, immediately in tunnel.

Mesh:

P45-90: to obtain a good opacity.

Films:

All solvent resistant emulsions are suited.

Cleaning:

ST 1000.

Storage stability

Min 4 years (mix well before use).

Remarks:

Can be printed directly on the offset prints when this one is **good** protected with a high quality offset release varnish. Otherwise we advise to print first our UV varnish UV 150 Special mauve or a solvent release varnish CF 150/14.

Always make a test before you start the production.
